# IMPORTANT INFORMATION FOR TRANSACTIONS FOR A RETAIL LOCATION

The commissions and fees that you will be charged by Western Union for the Service, and the exchange rates that will be applied are explained in the transfer form that will be provided to you at the Agent Location where you carry out the transaction.

Payouts are generally made in the national currency of the target country (in some countries, only an alternative payout currency is used).

Exchange rates are only estimates. The actual exchange rate will be determined at the time the transfer is confirmed by the system.

All currencies will be converted at the exchange rate applied by Western Union at the time the transaction is made. Western Union will calculate its exchange rates on the basis of the interbank rates available in the market, plus a margin established in accordance with the minimum of 0% and maximum limits of 12%. Western Union and its Agents can benefit from currency exchanges. Most exchange rates are adjusted several times during the day, according to current rates in global financial markets.

Insofar as it is permitted by law, Western Union will deduct an administration charge from transfers not picked up within one year of the send date.

The terms and conditions for retail transactions can be found at the agent location.
